

FLYGFESTEN 2025

DALA-JÄRNA 8 - 9 - 10 AUGUSTI

Several of the airpark neighbours went to Dala-Järna Airshow 2025.

Here are some images taken by Anna Eronn who went to Dala-Järna Friday and Saturday. For me, Friday evening was absolutely the best. The fireworks and pyro were truly spectacular! Let's start with some pictures from Friday evening:

Jet Para Hawk Team lightning up the airfield!

The Jet Para Hawk Team have landed and the Team Thunder performing in the sky.

More fireworks! Both from the ground and from the airplane in the sky.

Johan Gustavsson did a great airshow with his glider.

EuroSPARX light up the sky. Amazing show which ended this day's airshow late Friday!

Here is the Team 50, with airpark neighbour Niklas Eriksson, doing a tremendous airshow and the Mustang in front.

Team 50 and the Corsair.

If you had the yellow badge band, you belong to the lucky group of pilots.

Happy brothers got Team 50 stickers after their show in the air. Thank you, Niklas Eriksson.

Timm Holzhauser's Kodiak and aerobatic gliding.

The Jet Para Hawk Team preparing for their show. The speaker told us, the jet engine consumes 1 litre per 60 seconds...

It's a quite long day and its good idea to bring your own chair.

DC3 Daisy

Me and Anders Kjellberg with his Pitts S1. He did awesome aerobatics!

We did see a lot more! Viggen, Gripen, Tiger Moth, Zlin, Gyrocopter, Blackwing, Spitfire, Vampire, Pipistrel Electro and more!

Back home in the airpark, on Sunday, the E3 NATO AWACS orbited over the airpark before heading for Dala Järna. See below:

The aircraft is a bit away.

Cheers,

Anna Eronn
